

# We wrote the book on Asphalt Recycling

# International Slurry Surfacing Association

*Slurry & Micro Surfacing, Chip Sealing & Crack Treatment*

# Asphalt Emulsion Manufacturers Association

## National Center for Pavement Preservation

**MICHIGAN STATE UNIVERSITY**

DEPARTMENT OF CIVIL & ENVIRONMENTAL ENGINEERING

- **The FHWA policy is:**
  1. Recycling and reuse can offer engineering, economic and environmental benefits.
  2. Recycled materials should get first consideration in materials selection.
  3. Determination of the use of recycled materials should include an initial review of engineering and environmental suitability.
  4. An assessment of economic benefits should follow in the selection process.
  5. Restrictions that prohibit the use of recycled materials without technical basis should be removed from specifications.
- FHWA has a longstanding position that any material used in highway or bridge construction, be it virgin or recycled, shall not adversely affect the performance, safety or the environment of the highway system. This remains a cornerstone in our policy statement. In order to foster innovation and future development we support research, field trials, and project demonstrations showcasing the findings.

# Agency Mission Statement

- Make your existing roadway perform to its maximum possible service life at the lowest possible cost.
