Roads

Americans spend 4.2 billion hours a year stuck in traffic at a cost of \$78.2 billion a year--\$710 per motorist. Roadway conditions are a significant factor in about one-third of traffic fatalities. Poor road conditions cost U.S. motorists \$67 billion a year in repairs and operating costs--\$333 per motorist; 33% of America's major roads are in poor or mediocre condition and 36% of the nation's major urban highways are congested. ¹ The current spending level of \$70.3 billion for highway capital improvements ² is well below the estimated \$186 billion needed annually to substantially improve the nation's highways. ³
