# PRRC Mission

- ▶ **To advance the state of the art and state of practice in pavement recycling and reclaiming and to provide public agencies with the tools and knowledge necessary to complete successful pavement recycling and reclaiming projects. We will serve both agencies and industry by providing an independent and objective forum for discussion, development, and advancement.**

# PRRC Initiatives

- ▶ **Education and Outreach**
- ▶ **Sustainable Pavements Toolbox**
- ▶ **Innovation and Research**

# Education and Outreach

- **Update ARRA's Basic Asphalt Recycling Manual (BARM)**
  - Contract FHWA to assist with revision of BARM
- **Virtual BARM**
  - Contract pending with Oklahoma Transportation Center for funds to make portion of BARM interactive

# Education and Outreach

- **Comprehensive Recycling Courses**
  - 2-Day Classes
  - Hot In-Place Recycling
  - Cold In-Place Recycling
  - Full Depth Reclamation
  - Development will follow ARRA Core Committee progress on guide specifications
  - 1<sup>st</sup> Class on CIR at PRRC in late fall 2011/winter 2012

# Education and Outreach

- **Comprehensive Recycling Course Contents**
  - Project Selection
  - Materials Selection & Mix Design
  - Construction Methods & Specifications
  - Best Practices
  - Quality Assurance Procedures
  - Thickness Design Guidelines

# Education and Outreach

## ➤ Training & Certification

- Combining just-in-time trainer certification with comprehensive recycling courses

## ➤ Outreach Activities

- Participation at Conferences and Trade Shows
  - Tucson Roads & Streets Conference
  - Atlanta In-Place Recycling Seminar
  - Rocky Mountain Asphalt User Producer Group
  - NCAT Professor Training Course
