

# Summary of Takeaways from the National Conference on Pavement Preservation

Judith Corley-Lay  
May 30, 2013

# Three Areas of Takeaways

- National Issues
- State to State (or state to local)
- Products or Processes

## National Issues

- MAP21- Performance Measures, Rules, Regulations, Process. Importance of Preservation language.
- NCAT and LTPP
- FHWA checklist application
- Funding
- National consistency.

## ***State to State- Sharing what we do and learning from each other***

- Benefit cost and LCCA- Texas shared their cost benefit approach
- Cold in Place- Nevada
- PP Manual- Maryland
- Hot in Place- Kansas
- ... and many more (14 in all!)

# Techniques/New Methods

- Use of fibers
- Skidabrader, rejuvenator
- Cold in Place
- New Equipment
- Micromilling
- Water Blasting
- Frictional Fog Seals
- Methods of quantifying value to society and sustainability

## Other Comments

- Value in discussions between partnerships
- Networking was great. Putting a face to a name.
- Importance of Executive presence.
- “Our leaders need to “see” the demo.
- Excellent state and local attendance.
- Need a preservation organization for locals.
- Excellent format for demos and conference.

## Final thought

- Thank you to Tennessee for hosting and all the hard work. You made us proud!
