- Missouri
- Nebraska
- North Dakota
- Ohio
- Wisconsin
- South Dakota

Provincial Agencies

- Manitoba
- Ontario
- Saskatchewan

Other Members

- Local Agency
- National Industry
- Academia

MPPP Steering Committee

Chair	Tara Liske, Manitoba
Vice Chair	Stephanie Wiegel, North Dakota
Secr/Treas	Todd Miller, Missouri
Past Chair	Jerry Geib, Minnesota

Directors

- Industry
 - Applied Pavement Technology, Pavement Technology Inc
- State
 - Indiana, Illinois, Missouri, Minnesota
- Local Agency
 - McHenry County, Illinois
- Member-At-Large

Activities

- Task Force
- Specifications
- Research with other Partnerships

Task Force

- **New Products and Processes**
 - Develop a procedure to allow the use of a new product with limited or no competitors
- **Preservation Product Performance Evaluations**
 - Uniform reporting method to evaluate the results of pavement preservation products and processes

Task Force

- **Best Practices for Longitudinal Joint Construction and Maintenance**
 - For original construction, preventative maintenance and repair
- **Contractor Certification**
 - Improve quality and consistency of pavement preservation treatments to achieve higher levels of performance, predictability and effectiveness

Task Force

- Public Communication on the Benefits of Pavement Preservation
 - Publicize success stories

Pooled Fund Research

- All 4 Partnerships
- \$40,000
- Topics based from the Pavement Preservation Needs Statement from the Pavement Preservation Research Roadmap (2008)

Midwest Pavement Preservation Partnership

Preservation Collaboration, Cooperation, and Communication

Indianapolis, Indiana

Westin Indianapolis Hotel

November 11-13

2013 Meeting

- Joint meeting with Midwestern Bridge Preservation Partnership (MWBPP)
 - Joint common sessions with Bridge
 - Separate technical sessions
- Industry offering an optional tour (emulsion plant and lab)

Joint Agenda Highlights

- Performance measures
- Asset Management
- Cost Effectiveness
- Performance based specifications

Pavement Agenda Highlights

- SHRP2 R26 Project Implementation Status
- Thin surface treatments
- Highly modified binders
- High friction surfaces
- NCAT Preservation Test Project

- We look forward to seeing our counterparts from the other 3 partnerships at our meeting in November!
