Blastrac Technology Overview
Presented By: Josh Jones
The world leader in design and manufacturing of portable shotblast systems.

Blastrac Global Organization includes:

- Blastrac BV – Netherlands
- Blastrac NA – Oklahoma City
- Blastrac Canada – Toronto
- Blastrac Asia – Shanghai
- Diamatic USA – San Diego

Blastrac is solely a manufacturer of equipment. Our focus is on innovation of the shotblasting technologies and the advancement of new pavement preservation practices.
What is Shotblasting?

- Shotblasting incorporates the use of a high speed blast wheel that propels steel shot in a controlled pattern at high velocity toward a substrate. The impact of the steel shot abrades and removes contaminants while etching the surface. The steel shot rebounds into an air wash separator. It is then cleaned and returned to the blast wheel for reuse.
Shotblast Equipment
Benefits of Shotblasting

- Environmentally Friendly
- No Containment Required
- Low Cost
- Restores Micro And Macro Texture
- Improves Water Dispersion And Reduces Hydroplaning
- Increases Friction
- Cleans, Prepares Surfaces For Chemical Applications
HMA Texturing
(MARYLAND)
HMA Texturing (MARYLAND)
Thin Bonded Overlay (TEXAS)
Bridge Epoxy Overlay (Alabama)
Non-Skid Removal (USS Midway Museum)
Thank You!!!
